CHANGES TO BEST LIMITS MESSAGES

The Luxembourg Stock Exchange would like to remind its users the 5 Best Limits 0004 (FIX U0004) messages will be deactivated completely on Monday 30/06/08 and will no longer be sent for any instrument on the NYSE Euronext systems (NSC-VE or NSC-VW trading engines).

These messages will be replaced by new 00L4 (FIX U00L4) message, which will be the new 10 Best Limits reference format. The dissemination of 00L4 (FIX U00L4) message will follow the same dissemination procedure as the current 0004 (FIX U0004) message.

These changes are to be integrated by ISVs on their trading platforms.

Should additional information be required for the correct functioning of your IT tools, technical specifications can be found on the NYSE Euronext site at (www.euronext.com/cashmembers>Market/IT documentation>IT development>NSC messages)

For more detailed technical information, you may also contact the NYSE Euronext teams.
