LGX Assistance Services

Helping issuers to meet best market practices and investors' expectations

LGX Assistance Services has been developed as a flexible resource for issuers interested in issuing sustainable bonds in a timely and cost-effective manner. Our team of sustainable finance experts will closely assist you with the issuance process, by providing support with the structuring and review of the framework, providing peer comparison, shaping the post-issuance allocation and impact reporting. Through the LGX Academy, our experts can also provide tailor-made trainings for employees involved in these processes.

- ✓ **Peer comparison:** Provide insights on industry peers' practices
- ✓ **Structuring of framework:** Assist the issuer in establishing a solid sustainable (green, social, sustainability and sustainability-linked bonds) framework in line with best practices in the market
- ✓ **Review of the framework:** Assist in reviewing an issuer's existing framework and upgrading it to meet best practices in the market, without providing an official opinion
- ✓ **Post-issuance reporting:** Assist the issuer in establishing a solid sustainable post-issuance allocation and impact report in line with market best practices
- ✓ **Tailor-made courses:** Building the capacity of the potential issuer by providing tailor-made trainings on latest developments in the market in terms of standards and best practices

Why LGX?

As the world's leading platform for sustainable finance, LGX has privileged and unrestricted access to a comprehensive online database of information on sustainable instruments.

Our sustainable finance experts collect extensive data on large samples of documents on a daily basis. This means that they are well-positioned to identify and suggest best reporting practices to issuers.

Through the LGX Academy, our team of sustainable finance experts allow participants to enrich their sustainability knowledge and gain a deeper understanding of market practices and instruments and is already successfully providing qualitative guidance for issuers.
