

## The LuxX Index

The LuxX index is a basket index with a twofold computation, ie the Price LuxX index and the Return LuxX index. The Price index is published as of 4 January 1999.

The Return LuxX index is similar to the Price index except that it takes into account the stripped net dividends. In so doing, it enables the investors to assess their return on investment. The Return index has been published since 31 March 1999.

### 1. Index entry requirements

- a) all shares issued by Luxembourg companies listed on the Luxembourg Stock Exchange having directly or indirectly an economic activity in Luxembourg, a significant activity on the Luxembourg Stock Exchange market or whose part of the shareholders is Luxembourg-based are eligible. The Executive Committee decides on the eligibility in respect of each company by assessing whether one of these requirements are adequately met;
- b) the LuxX index is an open index, which means that the number of eligible constituent companies is not limited. As a matter of fact, any company meeting the requirements specified in paragraph above can be retained among the index constituents.

### 2. Assessment of the companies' weight

- a) the weight of the Luxembourg companies in the basket used to calculate the LuxX index is assessed on the basis of their individual free-float market capitalisation;
- b) should the weight of a company be on top of 20%, it would be reduced to 20% and the excess would be distributed proportionately between the other index constituent companies. If several companies are subject to a limit of 20%, the Executive Committee may resolve, on the basis of the actual weight of the companies concerned, to readjust the weight of these companies by applying a scale of +/- 2.50% steps.

### 3. The LuxX index is a basket index

The LuxX index relies on a basket of easily tradable securities meeting the requirements defined above.

The number of securities included in the basket for a given share is obtained by applying its weight to the basis capitalisation of the index basket. The resulting amount is then divided by the last stock exchange price of the month preceding the index update date.

### 4. Revision of the index constituents

A revision of the LuxX index constituents is made annually by the Executive Committee in accordance with the procedures set out above. However, the Executive Committee may proceed to a revision in June in case of substantial variation of at least one of its components.

## 5. Composition of the LuxX Index

Note: The basket given above will be maintained until unless modified due to exceptional circumstances.

LuxX (Bloomberg LUXXX/Reuters .LUXX)	Number of shares	Weighting as at 02/01/19
Aperam	172	12.28%
ArcelorMittal	349	20.00%
Brederode	40	6.12%
Luxempart	22	3.2%
Reinet Investments	517	19.36%
RTL Group	127	17.91%
SES	395	20.00%
Socfinaf	20	0.62%
Socfinasia	13	0.51%
<b>TOTAL</b>	<b>1,655</b>	<b>100%</b>

## 6. Punctual amendments

Punctual amendments are made in the following cases: new listing, suspension, delisting, merger, acquisition, split, and any other event directly and substantially impacting the index.

## 7. ISIN codes

The ISIN code for the LuxX Price is: LU0916824781.  
The ISIN code for the LuxX Return is: LU0916828006.

## 8. Formula

The formula used to compute the index is that of Paasche.

## 9. Base level and date

Basis 1,000 as of 4<sup>th</sup> January 1999.

## 10. Disclaimer
