Part 1: Admission of Securities to trading on the Securities Markets of the Luxembourg Stock Exchange and simultaneous Admission to its Official List

CHAPTER 1: Scope and General Provisions

101 Scope

101.1 This Part sets out:

For the purposes of this Part, admission shall mean the decision by the Luxembourg Stock Exchange to admit a Security to trading on one of its Securities Markets and, at the same time, to its official list, with a withdrawal or delisting being understood accordingly.

102 [Reserved]

103 Competence

103.1 The Luxembourg Stock Exchange is the competent body for all decisions and operations relating to the admission of Securities, their suspension, withdrawal and delisting, the maintenance of its official list, and for the transfer of Securities from one market to another and for all the continuing obligations of Issuers as set out in this Part, except if National Regulations or the European Union Law prescribes otherwise.

103.2 If there has been an actual or it has serious indications of a potential infringement by an Issuer of National Regulations or the European Union Law in respect of any initial or continuing obligation pursuant to National Regulations or the European Union Law, the Luxembourg Stock Exchange reserves the right to report the matter to the relevant competent authorities.

The Luxembourg Stock Exchange may consider any Issuer’s failure to comply with the AML/KYC obligations imposed by the Luxembourg Stock Exchange as a breach of the R&R.

In addition, the Luxembourg Stock Exchange reserves the right to inform CSSF when it has reasonable evidence that an Issuer is involved or attempts to participate in acts or complicities of money laundering or terrorist financing.
CHAPTER 2: Procedures for Filing an Application for Admission

201 Filing

An application for admission shall be filed with the Luxembourg Stock Exchange in the form specified by this entity. The market indication on which admission to trading of Securities is sought must be specified in the application.

202 Timetable

The Luxembourg Stock Exchange and the Applicant shall jointly decide upon a timetable for admission. The Applicant may be the Issuer or the Person who seeks admission.

203 Joint or Affiliated Admission

An application for admission must indicate if a similar application has been filed with another Regulated Market or an MTF or if it is envisaged that such an application will be filed in the near future.

204 Payment of Fees

The filing of an application for admission is deemed as the commitment to pay to the Luxembourg Stock Exchange the admission fees and the prospectus approval fees (if applicable), as well as any maintenance fees or file constitution fees (if applicable) that may be payable according to the specific conditions defined by the Luxembourg Stock Exchange.

205 Signature

The application for admission must be signed and filed by the Applicant or by any other Person duly authorised to intervene for this purpose by the Applicant.

206 Number of Securities

The application for admission shall indicate the maximum number or an unlimited number of Securities that may be admitted to trading. The application for admission shall indicate all the Securities of the same category of the Issuer in existence or that are to be issued as part of the application for admission. If the application for admission to trading relates to a Securities issuing programme, the admission shall refer to all the securities which may be issued under the programme and admitted to trading within the twelve months following the decision of the Luxembourg Stock Exchange.

207 Identification of the Issuer and of its Beneficial Owners

In addition to all other information requested by the Luxembourg Stock Exchange, any application for admission must include the full legal name of the Issuer, the name of its Beneficial Owner(s) and, where applicable, the name of any related or involved politically exposed person(s) (as defined by the AML Laws).
CHAPTER 3: Decision of the Luxembourg Stock Exchange

301 Consideration Period

Unless otherwise agreed between the Applicant and the Luxembourg Stock Exchange, the decision on the application for admission will take place as promptly as possible, within a maximum period of 10 working days on condition that the Luxembourg Stock Exchange has received all the documents and information that the Applicant has to provide to it.

302 Authority

The Luxembourg Stock Exchange may request the Issuer (or the Person seeking the admission) to produce documentation of any type and the confirmation and any other information it deems necessary for the examination of the application file. It may carry out any verifications it judges to be reasonably necessary during the scrutiny process of the application for admission and/or for identifying the Issuer and its Beneficial Owner(s). Moreover, the Luxembourg Stock Exchange must be informed of any modifications to the information and documents received at the time of the filing of the application for admission.

303 Additional Obligations

The Luxembourg Stock Exchange may subject the Issuers of Securities admitted to trading and to the official list to additional obligations provided that these are generally applied to all Issuers or by a category of Issuers.

304 Waivers relating to Admission to the Official List

The Luxembourg Stock Exchange may grant waivers to the conditions for the admission of Securities to the official list which are authorised in accordance with Articles 6 to 8 and 10 to 28 of the RGD, provided that these are generally applied to all Issuers when the circumstances justifying them are similar.

305 Waivers relating to Additional Obligations

The Luxembourg Stock Exchange may, under the same conditions as those prescribed in Rule 304, authorise waivers from the additional obligations specified in Rule 303.

306 Particular Requirement

The Luxembourg Stock Exchange may subject the admission of Securities to the official list to any particular requirement which it deems appropriate and which has been explicitly communicated to the Applicant.

307 Date of Admission to Trading

The Luxembourg Stock Exchange shall set the date of admission when the admission of Securities to trading will take effect and shall publish this date together with some particular elements concerning the trading of the Securities if applicable.
Scope of the Decision

The decision for admission taken by the Luxembourg Stock Exchange does not constitute any judgement as to the value of the Securities nor does it constitute any judgement on the Issuers.

Rejection of the Application

The Luxembourg Stock Exchange may reject an application for admission of a Security for any appropriate reason including, but not limited to, if the Issuer (or the Person seeking the admission) does not meet one or more of the conditions and obligations resulting from this Part or the National Regulations in force or if it considers that the admission of the Securities is likely to be detrimental to the fair, orderly and efficient operation of the Securities Market concerned or to the reputation of the Luxembourg Stock Exchange as a whole, or if it deems that the situation of the Issuer is such that the admission would be detrimental to the investors’ interests or if it discovers that a Security has already been admitted on another market and that the Issuer has not met its obligations resulting from this admission.

Requirement for Securitised Commodity Derivatives

For securitised derivatives which fall under the definition of “commodity derivatives” under MiFIR, the Luxembourg Stock Exchange will subject the admission to listing and/or trading (and subsequent potential increase) to a maximum total quantity of 2.5 million securities per ISIN code.

Initial Due Diligence and Identification of the Issuers

In parallel with the admission process, the Compliance Department of the Luxembourg Stock Exchange will carry out an initial due diligence in relation to the Issuer. No admission to trading and/or listing will be possible before the completion of a full and satisfactory due diligence. The Luxembourg Stock Exchange reserves the right to reject any application for admission in case (i) the results of the due diligence are not satisfactory or (ii) the due diligence process cannot be achieved.
CHAPTER 4: General Documentation to be Provided on Application

Documents

The application for admission must specifically include the following documents:

(i) A copy of the draft prospectus and the prospectus or the supplement to the prospectus approved for publication or for making available to the general public, prepared in accordance with the legal stipulations and regulations in force. The prospectus or the approved supplement to the prospectus shall be sent immediately after approval.

(ii) If applicable, a declaration that, to the knowledge of the Applicant, no significant events that may influence the valuation of the Securities have occurred since the approval of the prospectus.

(iii) A confirmation of the approval decision of the prospectus by means of a prospectus approval certificate issued by the competent authority of the home Member State or a confirmation of the existence of this certificate; or if there is no obligation to publish a prospectus according to the Prospectus Act, a declaration from the Issuer (or the Person seeking the admission) that the conditions for exemption of the prospectus have been met.

(iv) A declaration from the Issuer (or the Person seeking the admission) in which he commits to comply with the European Union Law relating to initial, periodic and specific information and to all provisions prescribed by the RGD relating to the holding of an official list. If applicable, this declaration shall be adapted and refer to Luxembourg law and to the rules of the Luxembourg Stock Exchange in place when the application for admission is in respect of the Euro MTF. The declaration specifies that the Issuer (or the Person seeking admission) also commits to comply with the relevant provisions contained in this section.

In the case of an admission to trading on the Regulated Market designated as “Luxembourg Stock Exchange”, the application shall identify the Member State of origin of the Issuer, as defined in Article 2(1)(l) of the Transparency Directive.

The Issuers of Securities shall, however, have the possibility of providing a joint declaration for all future issuances for which an admission will be sought.

This commitment shall remain valid for as long as the Securities from this same Issuer are admitted to trading on one of the Securities Markets of the Luxembourg Stock Exchange.

The Luxembourg Stock Exchange may request additions to this commitment, which it deems necessary, depending on the characteristics of subsequent issuances.

The joint commitment to be provided shall be valid for the admission to trading on all the Securities Markets of the Luxembourg Stock Exchange.

(v) A confirmation testifying that:

(a) The legal position and structure of the Issuer comply with applicable legislation and regulations relating both to its constitution and its operation under its articles of association.

(b) The legal position of the Securities complies with the relevant applicable legislation and regulations.

(c) A Credit Institution or Financial Institution has been appointed in such a way that the financial service of the Securities is ensured in Luxembourg for Securities holders.
(d) The administration of Securities events and the payments of dividends and coupons shall be assured.

(vi) A copy of the conventions or any other document governing the representation of the holders of the Securities.

(vii) The articles of association or management regulations of the Issuer and, where applicable, of the guarantor.

(viii) The annual reports of the last three financial years for an Issuer of equity-type securities and of the last two financial years for an Issuer of non-equity securities.

(ix) A proof of existence of the Issuer (e.g. notarised certificate of incorporation, extract of the register of companies…).

(x) The full list of the Issuer’s legal representatives (i.e. members of the administrative, supervisory or management bodies).

(xi) The list of the Issuer’s Beneficial Owner(s) including their country or countries of residence.

(xii) An organisation chart signed by the Issuer’s legal representatives showing the Issuer, the guarantor (if any), the Beneficial Owner(s) as well as all intermediary entities.

Additional Information

An Issuer shall take all necessary measures to ensure its LEI is valid and updated and shall transmit it to the Luxembourg Stock Exchange as long as its financial instruments are admitted to trading on a Securities Market of the Luxembourg Stock Exchange.

The Luxembourg Stock Exchange reserves the right to request any additional document or information that it may deem necessary or relevant in order to (i) precisely identify the Issuer and/ or its Beneficial Owner(s) and (ii) prevent or avoid any risk of money laundering or terrorist financing and/or any risk of complicity or attempt of money laundering or terrorist financing.
CHAPTER 5: General Rules and Conditions for Admission to a Regulated Market

501 Scope

The provisions in this Chapter apply to Securities admitted to trading on the Regulated Market designated as "Luxembourg Stock Exchange". The same Securities may not simultaneously be admitted to trading on this market and on the MTF designated as "Euro MTF".

502 Free Negotiability

The Securities for which an application for admission to trading is requested shall be capable of being traded in a fair, orderly and efficient manner and to be negotiated freely as set forth, in particular but not limited to, under Article 51 of MiFID II and Articles 1 to 4 of the Commission Delegated Regulation (EU) 2017/568 of 24 May 2016 supplementing MiFID II with regard to regulatory technical standards for the admission of financial instruments to trading on regulated markets.

503 Admission without Consent of the Issuer

The Luxembourg Stock Exchange may decide to admit Securities to trading from an Issuer without its consent on condition that (i) the Securities have already been admitted to trading on a regulated market (as defined by Article 4(1)(21) of MiFID II) not operated by the Luxembourg Stock Exchange and meet the relevant conditions stated by the Prospectus Act and (ii) the Luxembourg Stock Exchange has achieved a full and satisfactory due diligence.

In this case, the Issuer has no obligation to provide the Luxembourg Stock Exchange with any documentation or information, including the ones identified by Rule 401. However, the Person who has sought the admission to trading of Securities of an Issuer without its consent, may, instead of the Issuer, provide the Luxembourg Stock Exchange with any documentation or information in order to facilitate the fair, orderly and efficient functioning of the market.

The Luxembourg Stock Exchange shall inform Issuers who are admitted to trading on a Regulated Market by virtue of this regime.
CHAPTER 6: General Rules and Conditions for Admission to the Euro MTF

601 Scope

The provisions in this Chapter apply to Securities admitted to trading on the Euro MTF. The same Securities may not be simultaneously admitted to trading on the Euro MTF and on the Regulated Market designated as “Luxembourg Stock Exchange”.

602 Applicable Rules and Conditions

602.1 Without prejudice to Rule 602.2 below, the rules and conditions prescribed in Chapter 5 apply to Securities for which the admission to trading is requested with the consent of the Issuer. The Luxembourg Stock Exchange may grant a waiver to these general rules and conditions on a case by case basis if such waiver is not detrimental to the principle of fair trading and if it is not in contradiction to the applicable provisions in relation to the decision for admission to the official list.

602.2 The marketing of UCIs is not a precondition for the admission to trading on the Euro MTF.

603 Admission without Consent of the Issuer

The Luxembourg Stock Exchange may decide to admit Securities for trading from an Issuer without its consent on condition that (i) the Securities have already been admitted to trading on a regulated market (as defined by Article 4(1)(21) of MiFID II) or on an MTF not operated by the Luxembourg Stock Exchange. In any of these cases, the Issuer is not bound to provide to the Luxembourg Stock Exchange the documents and information required under the European Union Law obligations relating to initial, periodic and specific information or those prescribed by the RGD or in this Part. However, the Person who has sought the admission to trading of Securities of an Issuer without its consent, may, instead of the Issuer, provide the Luxembourg Stock Exchange with any documentation or information in order to facilitate the fair, orderly and efficient functioning of the market and (ii) the Luxembourg Stock Exchange has achieved a full and satisfactory due diligence.
CHAPTER 7: General Rules and Conditions for Admission to the Official List of Securities Admitted to Trading on a Securities Market of the Luxembourg Stock Exchange

701 Application for Admission to the Official List

701.1 An application for admission to trading of Securities on one of the Securities Markets operated by the Luxembourg Stock Exchange is also deemed to be an application for admission to the official list. On the request of the Issuer or the individual seeking the admission to trading, the Securities specified in the application for admission to trading may not be admitted to the official list.

701.2 An application for admission to the official list without an application for admission to trading on one of the Securities Markets of the Luxembourg Stock Exchange is possible subject to the conditions set out in the Rulebook – LuxSE Securities Official List. For the avoidance of doubts, admission to the official list without admission to trading is not covered by these R&R.

702 Conditions Applicable to the Securities admitted to the Official List

In accordance with the RGD, Securities to be admitted to the official list shall comply with the following conditions:

702.1 Admission of Shares and Other Equivalent Securities (Articles 6 to 16 of the RGD)

  • Conditions Applicable to the Issuer (company)

702.1.1 Legal position of the Issuer (company): The legal position of the Issuer shall conform to the laws and regulations to which it is subject as regards both its incorporation and under its articles.

702.1.2 Minimum size of the Issuer (company): The foreseeable stock market capitalisation of the Shares which are the subject of the application of admission to the official list, or if this cannot be assessed, the capital of the company, including the results from the last financial year, must be at least EUR 1,000,000 or the equivalent value in any other currency.

Non-respect of this condition shall not conflict with the admission to the official list where the Luxembourg Stock Exchange is satisfied that there will be an adequate market for those Shares.

The condition stated in the first paragraph of this point 702.1.2 above does not apply to the admission to the official list of a further block of the Shares of the same category as those already admitted.

702.1.3 Period of existence of the Issuer (company): The company must have published or filed, in accordance with national law, its annual accounts for the three financial years preceding the application for admission to the official list. The Luxembourg Stock Exchange may derogate with this condition if such a derogation is desirable in the interest of the company or the investors and if the Luxembourg Stock Exchange is satisfied that the investors have the necessary information available to be able to make a well-founded opinion on the company and on the Shares for which admission to the official list is applied for.

Companies benefiting from a waiver from the Luxembourg Stock Exchange as set out in the first paragraph of this point 702.1.3 shall publish for the time during which the waiver is granted, a periodic report covering the first, second and third quarters of a financial year. These periodic reports, the content of which, is defined in the provisions stated in Rule
1002(ii) for the period under consideration must be made available to the public in the three months of the period under consideration. In place of the report for the second quarter, the company may prepare a report covering the whole of the first half of the financial year.

702.1.4 **Obligation of the Issuer (company) whose Shares are admitted to the official list:** Without prejudice to paragraph 2 of point 702.1.9, in the case of a new public issuance of Shares of the same category as those already admitted to the official list, the Issuer shall, if there is no automatic admission of these new Shares, apply for their admission to this official list either at the latest one year after their issue, or at the moment when they become freely negotiable.

- **Conditions applicable to the Shares**

702.1.5 **Legal position of Shares:** The legal position of the Shares shall conform to the laws and regulations to which they are subject.

702.1.6 **Negotiability of Shares:** The Shares must be freely transferable.

The Luxembourg Stock Exchange may consider as freely transferable Shares those Shares which are not fully paid-up, if arrangements have been made to ensure that the trading of these Shares is not impeded and if the clarity of the transactions is assured by the provision of adequate information to the public.

In case of admission to the official list for which the acquisition is subject to approval, the Luxembourg Stock Exchange may only derogate the first paragraph if the use of the approval clause is not of a nature likely to disturb the market.

702.1.7 **Public issue preceding an admission to the official list:** In the case of a public issue preceding admission to the official list, the end of the period during which the subscription applications may be submitted must precede the first listing.

702.1.8 **Distribution of Shares:** A sufficient distribution of Shares to the public of one or more Member States must be achieved at the latest at the time of the admission to the official list.

The condition specified above shall not apply when the Shares are to be distributed to the public through the Regulated Market or the MTF. In this case the admission to the official list may only be granted if the Luxembourg Stock Exchange believes that sufficient distribution through the Regulated Market will take place within a short time frame.

In the case of an application for admission to official listing of a further block of Shares of the same category, the Luxembourg Stock Exchange may assess whether the distribution of Shares to the public is sufficient in relation to all the Shares issued and not only in relation to this further block.

If the Shares are admitted to the official list of one or more third countries, the Luxembourg Stock Exchange may, by derogation of the first paragraph of this point 702.1.8, provide for their admission to the official list when sufficient distribution to the public has been achieved in the third country/countries where they are listed.

A sufficient distribution shall be deemed to have been achieved either when the Shares which are subject to the application for admission have been distributed to the public up to at least 25% of the subscribed capital represented by this category of Shares or when, due to the high number of Shares of a same category and the extent of their distribution to the public, proper operation of the market is assured with a lower percentage.
702.1.9 **Listing of Shares of the same category:** The application for admission to the official list must cover all Shares of the same category already issued.

This condition shall not apply to applications for admission that do not cover all the Shares of the same category already issued, when the Shares of that category for which the admission is not requested form parts of blocks designed to maintain control of the company or which are not tradable during a determined period in accordance with agreements, provided that the public is informed of these situations and that there is no risk of such situations causing any prejudice to the holders of the Shares for which admission to the official list is being applied for.

702.1.10 **Physical form of Shares:** For admission to the official list for Shares issued by companies from another Member State and which have a physical form, it is necessary and sufficient that their physical form meets the applicable norms in that other Member State. Where the physical form does not comply with the standards in force in Luxembourg, the Luxembourg Stock Exchange may disclose this situation to the public.

The physical form of Shares issued by companies from a third country must offer sufficient safeguards for the investors’ protection.

702.1.11 **Shares issued by companies in a third country:** If the Shares issued by a company from a third country are not listed in either the country of origin or of the principal market, they may not be admitted to the official list unless the Luxembourg Stock Exchange is satisfied that the absence of listing in the country of origin or of the principal market is not due to the need to protect investors.

702.2 **Admission of Units issued by UCIs other than closed-end funds**

The admission to the official list of Units issued by an UCI other than a closed-end fund is not subject to the conditions stated in point 702.1 above.

702.3 **Admission of Bonds or other Debt Securities issued by a Company (Articles 17 to 24 of the RGD)**

• **Conditions Applicable to the Issuer**

702.3.1 **Legal position of the Issuer (company):** The legal position of the Issuer (company) shall conform to the laws and regulations to which it is subject, as regards both its incorporation and its operation under its articles.

• **Conditions Applicable to the Bonds**

702.3.2 **Legal position of bonds:** The legal situation of the bonds shall conform to the laws and regulations to which they are subject.

702.3.3 **Negotiability of the bonds:** The bonds must be freely transferable. The Luxembourg Stock Exchange may consider as freely transferable bonds, those bonds which are not fully paid-up, if arrangements have been made so that the negotiability of these bonds is not impeded and if the clarity of the transactions is assured by the provision of adequate information to the public.

702.3.4 **Public issue preceding an admission to the official list:** In the case of a public issue preceding admission to the official list, the end of the period during which the subscription applications may be submitted must precede the first listing. This provision shall not apply in the case of a tap issue of bonds when the closing date for subscription is not determined.
702.3.5 **Listing of the bonds of a same issue:** The application for admission to the official list shall cover all the bonds of a same issue.

702.3.6 **Physical form of the bonds:** For admission to the official list of bonds which are issued by companies based in another Member State and which have a physical form, it is necessary and sufficient that their physical form meets the standards in force in that other Member State. Where the physical form does not comply with the standards in force in Luxembourg, the Luxembourg Stock Exchange may disclose this situation to the public.

The physical form of bonds issued in a single Member State must meet the applicable standards in that state.

The physical form of bonds issued by companies from a third country must offer sufficient safeguards for the investors’ protection.

• **Other Conditions**

702.3.7 **Minimum Amount:** The minimum amount of the issue may not be less than EUR 200,000 or its equivalent value in any other currency. This provision shall not apply in the case of a tap issue of bonds where the loan amount is not fixed.

Non-respect of this condition shall not conflict with the admission to the official list where the Luxembourg Stock Exchange is satisfied that there will be a sufficient market for the bonds concerned.

702.3.8 **Convertible bonds, exchangeable bonds and bonds with warrants attached:** Convertible bonds, exchangeable bonds and bonds with warrants may only be admitted to the official list if the shares or units to which they relate have previously been admitted to this list or admitted to trading to another market that operates in a legitimate, recognised and open manner or are admitted at the same time.

By derogation of the above, convertible or exchangeable bonds or bonds with warrants, may be admitted to the official list if the Luxembourg Stock Exchange is satisfied that the holders of the bonds have at their disposal all the necessary information to form an opinion concerning the value of the shares or units related to such bonds.

702.3.9 Admission to the official list of bonds issued by legal entities under the jurisdiction of a Member State which are incorporated or governed by a special law or which in accordance with such a law are not subject to the conditions stated in this point 702.3 when the bonds benefit, for redemption and the payment of interest, from the guarantee of a Member State or one of its federated states.

702.4 **Admission of Bonds or Debt Securities Issued by a State or its Regional or Local Authorities, or by an International Public Body (Articles 25 to 28 of the RGD)**

702.4.1 **Negotiability of bonds:** The bonds must be freely transferable.

702.4.2 **Public issue preceding an admission to the official list:** In the case of a public issue preceding admission to the official list, the end of the period during which the subscription applications may be submitted shall precede the first listing. This provision shall not apply when the closing date of the subscription period is not determined.

702.4.3 **Listing of bonds of a same issue:** The application for admission to the official list must cover all the bonds of a same issue.
702.4.4 **Physical form of bonds:** For admission to the official list of bonds which are issued by a Member State or its regional or local authorities and which have a physical form, it is necessary and sufficient that their physical form meets the standards in force in this Member State. When the physical form does not comply with the applicable norms in Luxembourg, the operator of the trading platform may disclose this situation to the public.

The physical form of bonds issued by third countries or their regional or local authorities or by public international organisations must offer sufficient safeguards for the investors’ protection.

702.4.5 The admission to the official list of bonds issued by a Member State and by communes in the state of Luxembourg is not subject to the conditions stated in point 702.4.

702.4.6 Admission to the official list of bonds issued by legal entities under the jurisdiction of a Member State which are incorporated or governed by a special law or which in accordance with such a law are not subject to the conditions stated in this point 702.4, when the bonds benefit, for redemption and the payment of interest, from the guarantee of a Member State or one of its federated states.

702.5 Admission of certificates representing shares/Depositary Receipts

702.5.1 Admission of certificates representing shares/Depositary Receipts is allowed under the following conditions:

(i) The Issuer must match the requirements set out in points 702.1.1 to 702.1.3;  
(ii) The Issuer must comply with the obligation imposed under point 702.1.4; and  
(iii) The Depositary Receipts are in accordance with points 702.1.5 to 702.1.10.

702.5.2 An application for admission to the official list relating to certificates representing shares may only be considered if the Luxembourg Stock Exchange deems that the Issuer of these certificates offers sufficient guarantees to protect investors.

702.6 Waivers

The Luxembourg Stock Exchange may grant waivers to the conditions for the admission of Securities to the official list which are authorised in accordance with points 702.1.1 to 702.1.3, and points 702.1.5 to 702.3.9 relating to the holding of an official list of financial instruments provided that these are generally applied to all Issuers when the circumstances justifying them are similar.

703 Securities not covered

The Luxembourg Stock Exchange may decide to admit to the official list Securities other than those specified in points 702.1 to 702.5 upon condition of compliance by the Issuer and its Securities with the relevant provisions prescribed in Chapters 5 or 6 in accordance with the market designated at the time of the application for admission.
CHAPTER 8: Transfer, Suspension, Withdrawal and Delisting

801 Suspension or Withdrawal on the Initiative of the Stock Exchange

The Luxembourg Stock Exchange may suspend or withdraw from trading any Security that no longer complies with, or whose Issuer no longer conforms to, the provisions of this Part and to those relating to the settlement of Securities in Part 3 of these R&R relating to the market rules and in the Trading Manual, except if such a measure is likely to significantly damage the interests of investors or to compromise the orderly operation of the market. A decision to withdraw from trading also equates to a simultaneous decision to withdraw from the official list.

802 Transfer on the Initiative of the Stock Exchange

The Luxembourg Stock Exchange may, on its own initiative, execute a transfer of Securities admitted to trading on the Regulated Market designated as “Luxembourg Stock Exchange” to the MTF designated as “Euro MTF”, when an Issuer does not comply with the regulatory provisions applicable to Securities admitted to trading on a Regulated Market.

803 Delisting (Radiation)

The Luxembourg Stock Exchange may, on its own initiative, decide upon the delisting (radiation) of a Security from trading on a market when it is of the firm belief that, for specific reasons, the normal and consistent market for this Security cannot be maintained. A decision for delisting from trading on a market equates to the simultaneous decision for delisting from the official list.

804 Suspension or Withdrawal on the Initiative of the Issuer

An Issuer may seek the suspension or withdrawal of Securities from trading. To this end, a justified request specifying the reasons for the request must be addressed to the Luxembourg Stock Exchange. Such a request is also valid simultaneously for official listing. Upon review of the request, the Luxembourg Stock Exchange shall take into account the interests of the stock market, interests of the investors and, if applicable, interests of the Issuer. The Luxembourg Stock Exchange shall fix the date when the suspension or withdrawal of Securities will take effect. It may request the Issuer to publish a press release to this effect and demand that the announcement be made sufficiently early so that a reasonable timeframe can be respected between the announcement and the date on which the suspension or withdrawal becomes effective.

805 Transfer Request

An Issuer may seek the transfer of Securities admitted to trading on the Regulated Market designated “Luxembourg Stock Exchange” to the MTF designated as “Euro MTF”. To this end, a justified request specifying the reasons for the request must be addressed to the Luxembourg Stock Exchange. The Luxembourg Stock Exchange shall fix the date when the transfer of the Securities for trading will take effect, without needing to draw up a prospectus.
806.1 Under the Commission Delegated Regulation (EU) 2017/569 of 24 May 2016 supplementing MiFID II with regard to regulatory technical standards for the suspension and removal of financial instruments from trading, decisions relating to the transfer, suspension, withdrawal or delisting from trading and from the official list must be published on the website of the Luxembourg Stock Exchange. These decisions shall be communicated to the Competent Authority along with the relevant information relating to such decisions.

806.2 As technical suspensions due to pending delistings are only due to prevent settlement issues and do not pose any risk or disorder to the market, they will not fall under the reporting obligations set forth by the Commission Delegated Regulation mentioned above but they will be subject to a specific reporting procedure with the Competent Authority.
CHAPTER 9: Continuing Obligations of Issuers of Securities Admitted to Trading

901 Admission of Newly Issued Securities of the Same Category

If supplementary Securities are issued which belong to the same category as Securities already admitted to trading, the Issuer must apply for admission to trading for these supplementary Securities. This application must be received at the latest one year after their issue or at the point when they become freely negotiable.

902 Equal Treatment

The Issuer must ensure equal treatment of all shareholders and holders of Shares or Units who are in identical situations and also between all the holders of debt Securities issued within the same issue as far the rights attached to these Securities are concerned.

903 Securities Events

Without prejudice to the other continuous obligations imposed by National Regulations, the Issuer shall communicate as early as possible to the Luxembourg Stock Exchange any information relating to events affecting the Securities admitted to trading that it deems necessary to facilitate the due and proper operation of the market. Such information must be communicated to the Luxembourg Stock Exchange in advance of the Securities or corporate event in such a way that it can take appropriate technical measures.

904 Open List of Information Required

The information referred to in Rule 903 includes, but is not limited to:

(i) Amendments affecting the respective rights of different categories of shares, Depositary Receipts, equity linked Securities or debt Securities.

(v) Announcement of any distribution.

(vi) Payment and detachment of dividends or interest.

(xi) Any other event or information which, on the date of its publication by the Issuer or on its behalf, is likely to influence the price of the Security.

(xii) Any suspension from trading at the request of the Issuer on other trading venue of its issued Securities or any linked financial instruments.
Depository Receipts

In the case of Depository Receipts, including Securities conferring on their holders the right to acquire other Securities, the information mentioned in Rule 903 includes, but is not limited to:

(i) Information affecting the respective rights relating to the different categories of Securities;

(ii) Corporate events of the Issuer of underlying securities.

Disclosure of Information to the Luxembourg Stock Exchange

The Issuer shall communicate to the Luxembourg Stock Exchange at the latest at the requisite moment for making public and filing such information, all information concerning the Securities admitted and the Issuer that it has to make public, under National Regulations and the European Union Law. None of the obligations exempts the Issuer from providing the same information to the competent authorities.

Open List of Information Required

The information referred to in Rule 906 includes, but is not limited to:

(i) All the regulated information which must be filed by an Issuer with the competent authority determined according to the definition of the Home Member State in Article 2(1) (i) of the Transparency Directive. Such communication is not required if the Issuer (or a filing entity acting on its behalf) files the regulated information with the Officially Appointed Mechanism (OAM) service operated by the Luxembourg Stock Exchange.

(ii) Important changes in activities or any modifications made to the articles of association.

(iii) Notices of meetings for Security holders.

Other Useful Information for Investor Protection

An Issuer whose Securities are admitted to trading shall communicate to the Luxembourg Stock Exchange all other information that it deems useful for the protection of investors or for the due and proper operation of the market. Whenever investor protection or the due and proper operation of the market demands it, the Issuer may be required by the Luxembourg Stock Exchange to publish certain information in the form and timescales that seem appropriate to it. If the Issuer does not comply with this request, the Luxembourg Stock Exchange may, after having heard the Issuer, proceed itself with the publication of this information at the expense of the Issuer and disclose the disregard of the Issuer in respect of the obligations to which it is bound.
Equivalent Information

Every Issuer whose Securities are admitted to trading on a Securities Market of the Luxembourg Stock Exchange shall ensure in Luxembourg the provision of equivalent information to that made available to the market of any other stock exchange(s) situated or operating outside the Member States of the European Union, to the extent that this information may be important for evaluating the securities in question.

LEI

An Issuer shall take all necessary measures to ensure its LEI is valid and updated and shall transmit it to the Luxembourg Stock Exchange as long as its financial instruments are admitted to trading on a Securities Market of the Luxembourg Stock Exchange.
CHAPTER 10: Supplementary Provisions for Issuers whose Securities are Admitted to Trading on the Euro MTF Market

1001 Publication Obligations for Issuers of Shares

Any Issuer whose Shares are admitted to trading on the MTF designated as “Euro MTF” with the exception of Paragraph (ii) for UCIs must:

(i) Promptly publish any amendments to the rights attached to the different categories of Shares.

(ii) Inform the public, as soon as it comes to its notice, of changes to the structure (holders and breakdown of holdings) of the major holdings of its capital as compared to the capital structure that was previously made public in this respect. If applicable, the Issuer shall inform the public in Luxembourg, at the latest within nine calendar days, whenever it comes to their notice of the acquisition or disposal by a natural person or legal entity of a number of shares if the holding thereof becomes higher or lower than 10%, 20%, 1/3, 50% and 2/3 of the total voting rights.

(iii) Promptly publish, in Luxembourg, all the necessary communications to the holders of the Securities and in particular those relating to the allotment and payment of dividends, operations of new share issues as well as operations concerning bonus shares, subscription, renunciation and conversion.

1002 Disclosure Obligations for Issuers of Shares

Every Issuer whose Shares are admitted to trading on the MTF designated as “Euro MTF” must:

(i) Make available to the public, as soon as possible, its latest annual accounts and latest management report prepared in accordance with its national legislation. These accounts must be subject to independent verification by at least one auditor. If the Issuer concerned prepares both non-consolidated and consolidated accounts, the Issuer is authorised to only make the consolidated accounts available to the public.

(ii) Make available to the public within four months of the end of the first half year, a half-yearly report on their activities and their results, except if the national legislation applicable to this Issuer does not stipulate this. In exceptional, duly justified cases, the Luxembourg Stock Exchange may extend the publication time limit.

The half-yearly report comprises figures and a statement relating to company activity and results during the six months under consideration.

The figures presented in a tabular form shall at least indicate:

- The net turnover.
- The result before or after the deduction of taxes.

The explanatory statement shall include any significant information enabling investors to make an informed assessment of the company’s activities and results, together with an indication of any special factor which has influenced those activities and those results during the relevant period, and enable a comparison to be made with the corresponding period of the previous financial year. It shall also, as far as possible, refer to the company’s likely future development in the current financial year.
When a company prepares consolidated annual accounts, it is authorised to only disclose to the public its half-yearly report in a consolidated form. Part 2: Prospectus Approval for Admission of Securities to Trading

CHAPTER 1: Conditions for the drawing up, the Scrutiny and the Distribution of a Prospectus to be Published for the Admission of securities to trading

101 Defined Terms

For the purposes of the present Part 2, the term ‘prospectus’ shall refer to different forms of prospectuses – a standard prospectus, a short-form prospectus, a base prospectus and an alleviated prospectus under Part III or Part IV of the Prospectus Act (as the case may be).

Unless otherwise defined under the Prospectus Regulation or the Prospectus Act, terms used in Part 2 of the R&R shall have the meaning ascribed to them under Part 0 of these R&R.

102 Approved Prospectus

Where a prospectus for a public offer has been drawn up and approved in accordance with the Prospectus Regulation or Part III of the Prospectus Act, the Issuer is exempted from publishing a separate prospectus for the admission to trading on a market operated by the LuxSE, provided that information relating to the admission to trading is included.

A prospectus approved and notified (as the case may be) in accordance with the provisions of the Prospectus Regulation for an admission to trading on an EU regulated market, may validly be used for an admission to trading on a market operated by the LuxSE.

103 Part III of the Prospectus Act

The information to be set out in the alleviated prospectus for an admission to trading on the Regulated Market may be drawn up either (a) by using the annexes of the Commission Delegated Regulation (EU) 2019/980 of 14 March 2019 supplementing Regulation (EU) 2017/1129 of the European Parliament and of the Council as regards the format, content, scrutiny and approval of the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Commission Regulation (EC) No 809/2004, or (b) by making use of the appendices which are part of these R&R. In the event that certain items contained in the appendices are not appropriate with regard to the activity or the legal form of the Issuer, a prospectus giving equivalent information shall be drawn up by adapting said items.

104 Part IV of the Prospectus Act

In accordance with Article 62 of Part IV of the Prospectus Act, the provisions that apply in relation to prospectuses for admission to trading on a market regulated by the LuxSE, which is not set out in the list of EU regulated markets, are set out in these R&R. The prospectus may be drawn up either (a) by using the annexes of the Commission Delegated Regulation (EU) 2019/980 of 14 March 2019 supplementing Regulation (EU) 2017/1129 of the European Parliament and of the Council as regards the format, content, scrutiny and approval of the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Commission Regulation (EC) No 809/2004, or (b) by making use of the appendices which are part of these R&R. The present R&R may not be more restrictive than the rules established within the framework of the Prospectus Act and the Prospectus Regulation in similar circumstances.
CHAPTER 2: General Provisions

201 Notification

The Issuer or any person acting on its behalf shall notify the LuxSE prior to the expected listing date. A first set of comments is provided within a maximum period of three business days after the date of receipt of the duly filed application.

An updated draft prospectus integrating previous comments is reviewed within a maximum period of two business days.

202 Approval of the Prospectus

The prospectus that satisfies all the requirements set out in these R&R is approved by the LuxSE in accordance with the Prospectus Act.

To this end, the LuxSE shall be provided with a copy of the final prospectus in a searchable electronic format that cannot be modified.

By approving the prospectus, the LuxSE may not incur any liability whatsoever and does not give any undertaking as to the economic and financial soundness of the operation or the quality or solvency of the Issuer. 4.3  Trading Cycles: continuous trading and auction (uncrossing)

4301  Overview

As specified under the Trading Manual, Securities shall be traded either through continuous matching of orders at opposite sides of the Central Order Book or through call auction procedures following a period in which orders have been accumulated without execution.

The rules on allocation of Securities between continuous and auction mode trading are described in the Trading Manual.

For the avoidance of doubts, auction has the same technical meaning of uncrossing.

4302  Continuous Trading

4302.1  Pre-opening phase

An opening auction shall be held at the beginning of each Trading Day prior to the commencement of continuous trading, in the manner specified in one or more Notices.

4302.2  Main trading session

Upon completion of the opening auction, trading shall take place on a continuous basis, with each incoming order being checked immediately for possible execution against orders on the opposite side of the Central Order Book and any remaining unexecuted portion of such order being added to the Central Order Book, subject to different execution conditions permitted by Rule 4204.

4302.3  Closing phase

Except for certain types of Securities designated by the Luxembourg Stock Exchange, the final price shall be determined through a closing auction in the manner specified in one or more Notices.
4302.4 Trading-at-last

Except for certain types of Securities designated by the Luxembourg Stock Exchange, a short period may be provided at the close of a Trading Day during which orders can be entered for execution at the last traded price.

4303 Auctions (Uncrossing)

4303.1 Call phase

Each auction shall begin with a call phase in which orders are recorded without giving rise to Transactions. During such call phase, Members may enter new orders as well as modify or cancel existing orders. An indicative price, representing the price which the system matcher would determine on the basis of the given Central Order Book situation, shall be displayed and updated continuously as the Central Order Book situation evolves.

4303.2 Price determination phase

Following completion of the call phase, the system shall seek to determine a price so as to produce the maximum executable volume as per Rule 4401/3. During such price determination phase, no new orders may be entered and existing orders may not be modified or cancelled.

4303.3 Trading-at-last

For Securities designated by the Luxembourg Stock Exchange, a period may be provided following the auction during which orders can be entered for execution at the auction price.

4304 Post Trading Central Order Book Management

During a period after the close of trading defined by Notice, Members can access the Central Order Book in order to enter new orders as well as modify or cancel existing orders for the next Trading Day.

4.4 Market Mechanisms

4401 Order Matching and Execution

4401.1 Execution priority principle

Orders in the Central Order Book shall be executed according to strict price priority.

Orders at the same price are ranked and executed according to strict time priority, with the following exception: during the continuous trading phase, orders at the best limit submitted by a Member who is participating in the Internal Matching Facility will be executed against such Member’s incoming orders in the Central Order Book.

4401.2 Continuous trading

During continuous trading, each incoming order shall be checked immediately for possible execution against orders on the opposite side of the Central Order Book. Orders in the Central Order Book shall be executed according to price/time priority. The traded price shall be determined by the limit price of orders sitting on the Book.
Auctions (Uncrossing)

The auction price shall be the price which maximises the volume exchanged based on the Central Order Book at the closing of the call phase.

Market orders shall have priority over limit orders. Likewise, market-to-limit orders shall take precedence over limit orders with a limit equal to the opening price.

If there are several limits with equally high executable volume, the price shall be determined successively by reference to the lowest surplus for each limit, market surplus side and the price of the last automated trade (adjusted to take account of any corporate event that may have occurred in the interval). If such price is not available, another reference price determined in accordance with one or more Notices on the subject, until a single auction price is achieved.

Cross Trades and Principal Trades

Cross trades involve the simultaneous production and execution by a single Member of the Securities Market of the Luxembourg Stock Exchange of opposing buy and sell orders of Clients for an identical quantity of a particular Security and at the same price in the Central Order Book.

Cross trades can be made only for Securities traded continuously and shall be effected at a price within the market’s best bid/ask spread at the time of execution, boundaries included.

Principal trades involve Members of the Luxembourg Stock Exchange trading voluntarily against their Clients and shall be effected on the conditions applicable to cross trades.

Trading Safeguards

4403.1 Volatility interruptions or extensions

If any order entered in the Central Order Book is bound to cause the price of any Security to cross a defined collar the Luxembourg Stock Exchange will in continuous trading temporarily interrupt automated execution of such orders, for the portion which would be traded outside the collar, or in auction trading postpone the auction, as the case may be.

The aforesaid collar may be determined by the Luxembourg Stock Exchange in reference to a static or dynamic reference price, as set forth in one or more Notices.

In continuous trading, if a collar is crossed, an auction shall be automatically initiated before continuous trading is resumed.

In auction mode trading, the volatility extension shall consist of a postponement to the next auction planned.

4403.2 Other trading halts

The Luxembourg Stock Exchange may suspend trading in any Security in order to prevent or halt disorderly market conditions, either on its own initiative, and in its sole discretion, or at the reasoned request of the relevant Issuer.

In addition, the Luxembourg Stock Exchange shall suspend trading in any Security upon the request of the Competent Authority.
